

UNRESTRAINED, UNEXPECTED, UNIQUELY LEXUS.

CT 200h

 **LEXUS**
The pursuit of perfection

HYBRID SPORTS A SEDUCTIVE NEW LOOK

With the absolute lowest combined fuel efficiency rating of any luxury vehicle and its remarkable emission ratings, the CT 200h also produces fewer smog-forming emissions than other non hybrid vehicles in its class.

- Latest-generation Lexus Hybrid Drive technology seamlessly merges a state-of-the-art 1.8-litre Atkinson Cycle petrol engine with a powerful electric motor, an advanced compact battery and a revolutionary energy management system.
- Delivering a total power output of 100kW.
- The jaw-dropping ability to drive on electric power alone of up to 45 km/h in near-perfect silence with zero emissions.*
- Using 4.1 litres/100km, it emits a mere 94 grams of CO₂ per kilometre – making it as light as a dream on fuel and on emissions.

*dependent on speed and conditions.

'ON THE GO' TRANSFORMATION

Innovative Drive Mode Select allows you to choose between four modes: Normal, ECO, Sport and EV (Electric vehicle) and it instantly transforms the CT into the car you need it to be in any given situation. A more perfect contradiction is hard to find!

- With its seductively low seating position and sporty prowess that backs its sporty road handling capabilities, delivering outstanding fuel economy.
- Double wishbone/trailing arm rear suspension allows for tight cornering and exceptional straight-line stability.
- Solid handling and agility is intensified by performance dampers fitted to the F-Sport model.
- Skidding is pre-empted with the ABS (Anti-lock Brake System), whilst brake performance is boosted during those unexpected emergency stops with EBD (Electronic Brake force Distribution) and BAS (Brake Assist System).
- TRC (Traction Control) makes for smoother road trips, whilst cornering is mastered with VSC (Vehicle Stability Control) that senses and corrects over- as well as understeer.

THE LUXURY YOU DESERVE

The CT 200h will electrify your senses with a range of lavish features that one would expect from a Lexus:

- Bluetooth connectivity with voice command.
- Full Leather interior.
- Heated Seats.
- Multi-function Leather sports steering wheel.
- Dual Automatic Climate Control.
- Keyless start system.
- Daytime Running Lights.
- Eight airbags, including dual-stage driver/front, passenger airbags and front side airbags that deploy according to impact intensity.
- Whiplash Injury Lessening seats decrease neck motion during rear-end collisions.
- Impact-absorbing pads in front footwells reduce ankle injuries.
- Reverse camera with back guide monitor.*
- Smart entry system.*
- REMOTE TOUCH, intuitively anticipates your every need. Using 'human-centred engineering', its centralised interface will have you feeling at ease at all times.*
- HDD (Hard Disk Drive) Navigation and voice command* for your convenience.
